Truckers strike, the hump - self-employed in builders industry, garment trade, outwork - garment, electronics

- revival of older forms of industrial organization
- workers don't appear as proletarians & cultural reality to this
- "where labour appears to exploit labour"

'72-'73 300,000 self-employed } in UK building trades
250,000 union members }

de facto broke the pay norms during wage controls

Strike in '72 against bonus for guaranteed wage. union backed off.

Property boom + speculation. Employers have encouraged this wage structure - relation to demand for labour - avoid solidifying wage structure. Regression from union/proletarian.

Articles for Zerowork:

copy of these

- a) Britain + Ireland: I Munnis + Poranda. General article will be written in conjunction w/ AB whether or not print another ship. Historical + contemporary. Why does Ireland explode but not England - "the British state uses the Irish example." Theme - This is a mistake. Far from being backward struggle (save the nationalist aspect) is a advanced re constitution of the multinational working class. New phase of struggle. Has written 'European Themes' at conference in Paris - written in '72.
- b) Re composition of British capital in the last five years and unions: petrochemicals. The chemical plant. Disintegration of Clyde: and Scotland. Petro west. Midlands crisis and in its place. The Investors Chronicle. But little yet on class struggle. Tony Benn translating to energy.
- c) Derek might write about East End + docks. Ask him for "documents"
- d) The motor industry - documents from Crowley + Chrysler. Could be done through Big Flame. Documents. We might act as an intermediary but this would require formal approach. SUBSCRIBE TO BIG FLAME.
